Pre K Sight Word Worksheets

Trace It - Write It - your child should trace the word on the left and write the word in the empty box provided on the right. The word is given three times for good practice.

Color the word - Let your child explore creativity and use some colors to finish this activity. To finish this color-the-word activity, take a crayon, a colored pencil, or a marker and fill colors in the letters without crossing the borders for fun.

Find the word and circle it - In this Find the word worksheet, your child will use observational skills to find the word. To finish this task, let your child find the word and circle it with a pencil.

Find and color the word - let your child find the word and color the geometric shape with a colored pencil or a crayon without crossing the borders of the given geometric shape.

Missing Letter - The memory game! Let your child fill in the blanks with missing letters to complete the word from the letter choices below.
